

The Anglican Care Centre began as a dream to establish a ministry of practical Christian love in action to people in our community, especially those people who are disadvantaged.

The Trust was established in March 1994 by the Whangarei Anglican Parish.

Our services respond to people in need by Counselling, Budgeting Advice, Advocacy, Crisis help and Support.

Our code of ethics protects any client by ensuring confidentiality, competence and respect for individual differences and values.

All Counsellors have appropriate training and are affiliated to, or members of NZAC or NZCCA (the professional counselling bodies).

We were affiliated to NZ Federation of Family Budgeting Services Inc and are now part of the National body which came into being with the changes in MSD funding approach in 2016. All our Budget Advisers are trained and certificated.

In January 2010 we appointed a Seniors Community Support person to address the specific needs of supporting seniors living at home.

We rely on donations, grants, bequests and receive some contract funding from MSD.

Donations to the Whangarei Anglican Care Trust are tax deductible. Your donation helps maintain this community service.

Counselling Co-ordinator
Counsellor: Dip. Counselling,
Cert. Supervision MNZCCA
(Whangarei & Dargaville)

I am the Counselling Co-ordinator at Anglican Care. My client's ages range from the elderly to young people. I enjoy working with couples, as well as individual clients. Mild to moderate depression, in both male and female clients, would be the primary issue for the majority of clients I see. I also have an interest in grief work, and I hold a certificate in supervision. I am foundationally a person centred counsellor, but have an eclectic way of working with other modalities.

Counsellor: Dip. Counselling

Person centred counselling underpins my practice however I work eclectically using therapeutic models according to clients needs, and that which best builds the counselling relationship for individual clients. My key areas of work are depression, anxiety, grief and self esteem. I have a special interest in working with young women's issues.

I believe in approaching challenges from a strength's based perspective. My areas of interest are personal identity, self-esteem, life transitions, grief, loss, anxiety, depression and anger as well as inter-personal / couple relationships and communication. I have a special interest in supporting those who have experienced the trauma of relationship betrayal. I enjoy working creatively.
