

*The Anglican Care Centre began as a dream to establish a ministry of practical Christian love in action to people in our community, especially those people who are disadvantaged.*

*The Trust was established in March 1994 by the Whangarei Anglican Parish.*

*Our services respond to people in need by Counselling, Budgeting Advice, Advocacy, Crisis help and Support.*

*Our code of ethics protects any client by ensuring confidentiality, competence and respect for individual differences and values.*

*All Counsellors have appropriate training and are affiliated to, or members of NZAC or NZCCA (the professional counselling bodies).*

*The Budget Service is part of the Building Financial Capability Network across NZ. Financial Mentors complete the appropriate training.*

*Community Education programmes.*

*In January 2010 we appointed a Seniors Community Support person to address the specific needs of supporting seniors living at home.*

*We rely on donations, grants, bequests and receive some contract funding from MSD.*

*Donations to the Whangarei Anglican Care Trust are tax deductible. Your donation helps maintain this community service.*

### Sue Daumiller

*Whangarei has been my home for over 30 years and I have been a Seniors Community Worker since 2013.*

*I have over 25 years of experience caring for seniors. Some of that experience includes caring for an in-home dialysis client. This places me in a unique position of understanding, both from the client's perspective as well as considering the carer's well-being.*

### Jennie Payton

*I have lived in Whangarei for most of my life and feel strongly connected to Northland.*

*Walking the journey with my mum in recent years has created a passion in me for working with and supporting older people. I joined the Anglican Care Centre in 2021 and am enjoying working with the seniors in our community.*

*“Sometimes just talking about your situation can help you understand what you need.”*

**This is a free service**  
*enabled by the generous support of  
The Selwyn Foundation and  
The Minchin Trust.*

The aim of our Seniors Community Work is to facilitate access to the support you may need to help you live independently.

*Our Seniors Community Workers can...*

- *Explore with you, what your needs are and provide recommendations accordingly.*
- *Provide information on community services available and special interest groups.*
- *Make referrals where appropriate.*
- *Liaise with church leaders to meet spiritual needs (eg home communion).*
