

## Natalie Fuge

I have a Diploma in Physiotherapy, Post Graduate Diploma in Occupational Health and Safety (Otago). I completed a three year SGM course in Spiritual Direction but am no longer a member.

After retiring from my profession I spend many years engrossed in the art world and spent time as chair of the Estuary Arts Trust Board, Orewa, at a time when we raised the money and built the million dollar education wing.

Throughout these years I worked with people wishing to explore their dreams, these were not always Christian folk, however I am a strong believer that God dwells at the very core of our being. This was a fascinating and rewarding ministry.

Back in the early 1990's I was deeply involved in the visioning of our Care Centre and it thrills me to witness the wonderful work and ministry coming from there, serving the community in such practical ways and with such a dedicated and loving staff
