stress and trauma

## Last 3-months snapshot off whānau served

## Why do we need your support now

Due to funding cuts we've lost a major Government financial mentoring contract and our reserves are depleted as we continued to provide services to assist our community. Without additional funding, we may have to turn away families who desperately need our help.

We're not a large national charity with corporate infrastructure. We're your local community centre; nimble, responsive, and deeply connected to the people we serve. Every dollar goes directly to helping whānau in crisis.

**This is where you come in.**

### Every gift makes a real difference

**\$5,000** - Provides a month of emergency assistance for families in crisis

**\$10,000** - Funds comprehensive counselling services for 20 clients

**\$25,000** - Supports our budget mentoring programme for three months

**\$50,000+** - Ensures organisational stability and allows us to plan for the future

**But gifts of ANY size help. Even \$500 provides emergency food support for multiple families.**

# Together, we can ensure that no one in our community faces crisis alone.
